

Federal Communication Commission Interference Statement

This equipment has been tested and found to comply with the limits for a Class B digital device, pursuant to Part 15 of the FCC Rules. These limits are designed to provide reasonable protection against harmful interference in a residential installation. This equipment generates, uses and can radiate radio frequency energy and, if not installed and used in accordance with the instructions, may cause harmful interference to radio communications. However, there is no guarantee that interference will not occur in a particular installation.

If this equipment does cause harmful interference to radio or television reception, which can be determined by turning the equipment off and on, the user is encouraged to try to correct the interference by one of the following measures:

- Reorient or relocate the receiving antenna.
- Increase the separation between the equipment and receiver.
- Connect the equipment into an outlet on a circuit different from that to which the receiver is connected.
- Consult the dealer or an experienced radio/TV technician for help.

FCC Caution: Any changes or modifications not expressly approved by the party responsible for compliance could void the user's authority to operate this equipment. This device complies with Part 15 of the FCC Rules. Operation is subject to the following two conditions: (1) This device may not cause harmful interference, and (2) this device must accept any interference received, including interference that may cause undesired operation. This transmitter must not be co-located or operating in conjunction with any other antenna or transmitter. Operations in the 5.15-5.25GHz band are restricted to indoor usage only.

IMPORTANT NOTE

FCC Radiation Exposure Statement:

This equipment complies with FCC radiation exposure limits set forth for an uncontrolled environment. This equipment should be installed and operated with minimum distance 20cm between the radiator & your body.

New Generation Home WiFi

EnGenius Mesh Router covers your entire home at world's best WiFi with fastest, most stable and strongest connection.

Before Getting Started

Note: You must get connected to the internet for using EnMesh / EnFile service.

Download EnMesh APP

Download the EnMesh APP to set up WiFi network. Search for **"EnMesh by EnGenius"** on App store or Google Play.

Setup Mesh network

Follow the app steps to easy set up your new home WiFi.

Easy Share your files via EnFile APP

EnFile enable your Mesh router attached USB hard drive as private cloud storage. Access, share and manage media contents and files even easier with EnFile.

Download EnFile APP

Download the EnFile APP to share your media contents. Search for **"EnFile by EnGenius"** on App store or Google Play.

Note: To active the full service of EnFile, you must attach a USB hard drive to the USB port of the Mesh Router.
